

FOR IMMEDIATE RELEASE

GLAMOUR DESTINATION MANAGEMENT ADDS MOBILITY ACCESSORIES PROGRAMME

New Additions to Help Those with Special Travel Needs

The Glamour DMC Mobility Accessories Programme is designed to take the hassle out of traveling for the physically challenged or those with special needs. Provisions are also made for families traveling with younger children.

The company offers a range of mobility-boosting accessories which can be made available to customers at airports, cruise ship docks, hotels, and other sites. These services are provided along with transportation, meet & greet or drop off at a desired location.

Mobility accessories provided by the Glamour Destination Management include:

- Wheelchairs
- Scooters
- Infant/Baby car seats
- Child restraints
- Crutches
- Strollers

“This is an idea which arose out of needs of the clients when on island, particularly with greater limitations on luggage during air travel,” commented Rachel Anderson, whose brainchild it was. This service will also extend to vehicles equipped for the physically challenged and emergencies.

Glamour DMC, based in Montego Bay and with services also in The Cayman and Turks & Caicos Islands, is the Caribbean’s foremost destination management company with decades of experience and a proven record of satisfying clients all over the world. Glamour’s services cover transportation, destination concierge, event planning, receptive services, destination weddings, meeting & incentive group planning and management, tours and cruise excursions, among a myriad of other offerings.
